AJAY HARINATH SINGH: TYCOON'S TRYST WITH THAILAND

CHAIRMAN AND MANAGING DIRECTOR OF DARWIN PLATFORM GROUP OF COMPANIES (DPGC) AJAY HARINATH SINGH FORAYS INTO THE KINGDOM OF SIAM (THAILAND) WITH SEVERAL BUSINESS PROPOSALS, TIE-UPS AND REALISES THAT IT IS HIS DESCENT FROM LORD RAMA ESPECIALLY LAVA CALLED FOR IMMEDIATE BUSINESS ACTIONS IN BANGKOK

Agro-food processing and hospitality sector. Here his descent from Lav lineage comes as a binding force. All kings in the current Chakri dynasty of Thailand are often referred to as Rama. The use of the name "Rama 1, II and so on" is in line with the Thai practice of giving numbers to the king in the current dynasty. In the present dynasty, the first king to call himself Rama was Phra Mongkutkiao or King Vajiravudh, who was the sixth to reign. Presently Rama X Maha Vajiralongkorn rules the country.

Singh was told that the high profile Thai dignitaries that Ayutthaya was borrowed from the name of Rama's capital in the Ramayana epic, Ayodhya. Still, most of the names of the earlier kings as given by historians are titles rather than real names. The idea of this early kingship is said to be based on two concepts derived from Hinduism and Theravada Buddhist beliefs. The first concept is based on the Vedic-Hindu caste of "Kshatriya" or warrior-ruler, in which the king derives his powers from military might. The second is based on the Theravada Buddhist concept of "Dhammaraja," Buddhism, having been introduced to Thailand

It was something other than destiny that took Ajay Harinath Singh to Thailand (Kingdom of Siam) to receive two prestigious Awards for his excellent contribution to the industry. He never realised that his lineage of Lav (Son of Lord Rama) would one day connect him so deeply with Thailand, a country deeply engrossed with ideals of Rama and Buddha. Ramayana, the great Indian epic, says Lava belongs to the Ikshvaku clan or Suryavansha Dynasty of Kshatriyas in ancient India and Singh's caste Suryavanshi Rajkumar Rajputs claim their descent from him (Lava).

Singh, 39, being a global business tycoon drives businesses of Darwin Platform Group of Companies with over INR 41, 000 crore network and 19 associate companies in 11 countries. Awards and accolades to this "Young Tycoon" come naturally. He arrived at the Marriott Marquis Hotel, Queen's Park, Bangkok, Thailand to receive two awards- "Entrepreneur of the Year 2019-20" and "Brand of the Year 2019-20". The awards were given during a Summit which also included the 4th Edition

CHAIRMAN OF PREMIER BANK, OWNER OF JW MARRIOTT & HILTON

Asia's Greatest Brands and Leaders 2019-20 presented by AsiaOne Magazine and URS Media.

Mythological or historical connection melted Singh's hardcore profit-oriented business proposition for Thailand and emotional interaction with His Excellency Mr Abhisit Vejjajiva, the Former Prime Minister of Thailand led him to announce several business plans in Thailand especially in

AJAY SINGH WITH MR. HEMANT SOREN, CM OF JHARKHAND

around the 6th century CE, still governs actions of Kings, Ministers and people there. The idea of the Dhammaraja (or kingship under Dharma), is that the king should rule his people in accordance with Dharma and the teachings of the Buddha.

Singh's Rajput clan is believed to be descended from Lava the founder of the city of Lohpuri in Thailand, which is about 150 km from Bangkok, is named after Lava. Present-day Sultanpur, Uttar Pradesh in India, the place Singh comes from was said to be part of the Kosala Kingdom during the times of Rama. After Rama, his sons Lava and Kusha inherited the kingdom which was divided into North Kosala, to the north of Ayodhya and East Kosala, to the east of Ayodhya. Shrivasthi was the capital of North Kosala. During the times of Gautama Buddha, Shrivasthi was one of the six largest cities in India. Kushavati, modern-day Kushinagar, a town near Gorakhpur in the state of Uttar Pradesh was the capital of Kusha's kingdom.

Thanks to a networking meeting organised during the Summit with a strong theme- "India-Thailand: Today, Tomorrow, Together" The meet was organised in collaboration with the India Thai Chamber of Commerce (ITCC) at their premises at Sathon, Bangkok. This exclusive networking Meet saw the presence of eminent dignitaries such as His Excellency Mr Abhisit Vejjajiva, the Former Prime Minister of Thailand and Her Excellency Mrs Suchitra Durai, the Ambassador of India to the Kingdom of Thailand, who shared their insights about further enhancing the cordial ties between the two nations.

It was an inner call for Singh to enhance the cordial relations between the two countries through business tie-ups. As dignitaries went on to highlight the fact that India and Thailand share a strong historical and cultural connect. Singh's love and passion for the land of Siam also became visible. His mind started exploring to Darwin's role and possible contribution in infrastructure and transport sector when Mr Abhisit Vejjajiva mentioned that

GENERAL BIPIN RAWAT, CHIEF OF DEFENCE STAFF

Thailand and India should leverage their new land link to strengthen ties when the 1,360-kilometre trilateral highway is completed next year.

Singh agreed with the former Prime Minister of Thailand who believed that land connectivity will make a real difference not just in terms of physical transportation but also to bridge a psychological gap that exists between Thailand and India because the two countries don't share a land border."

With a strong historical-mythological connection and bonhomie with Abhisit Vejjajiva and President of India Thai Chamber of Commerce Ravi Sehgal, Singh not only announced his plans to invest in several projects in Thailand but also signed multiple MoUs with Canadian and Thai companies to form Joint Ventures for defence products, avionics and other sectors. For Darwin's standalone businesses, hospitality and food processing would be the stepping stone in Thailand. Sehgal also welcomed Singh in Thailand and assured all support from the Chamber.

Passionate for nation-building through strong business models, the Indian business conglomerate plans to invest in Food Processing, Agro and Hospitality were received huge appreciation from all quarters. At a time when Singh was announcing his plans at a networking meeting during the Summit, the Indian Ambassador to Thailand Mrs Suchitra Durai, reciprocated by inviting Thai companies to come to India for business.

Singh's business empire now encompasses a diverse range

of areas including finance, mining, energy, mixed farming, wine, mass media, news, airlines, Avionics, logistics, pharmaceuticals, shipping, realty, Infrastructure, Information Technology, Sports, Banking, Education and charities.

After discovering his love for Thailand emancipating from pre-historical bound, Ajay Harinath is now all set to provide new momentum to the Group's presence and operations in Thailand.

"We are a debt-free company. Darwin Group is all set to expand its wings into several sectors in Thailand. We have recently forayed in Middle East Countries and planned to 1.26 Omani Rial (USD 3.2 billion) in Special Economic Zone of DUQM, the port city of Oman for refineries, infrastructure, Aircraft manufacturing, and petrochemical projects. The process to acquire industrial land spreading over 25 kilometres has already begun. Similarly, for Thailand, we have deployed a dedicated team of Darwin officials immediately to finalise modalities and formalities," says Singh.
